Dog Days of Summer

As we enter August, we find ourselves approaching the end of the “Dog Days of Summer.” Officially, the Dog Days is not about dogs, but about a 40-day period of time of the rise of a star, Sirius, in a constellation called *Canis Major* (also known as the Big Dog Constellation). The star, which rises every morning from July 3 to August 11 (dog days), is the brightest star in the Canis Constellation and is known as the *Dog Star*.

**2 Peter 1:19** “And we have the word of prophecy [made] more sure; whereunto ye do well that ye take heed, as unto a lamp shining in a dark place, until the day dawn, and the day-star arise in your hearts...” This of course is a reference not only to another rising star, but to Jesus the Christ, rising to take precedence in our lives. The community of faith calling themselves Second Baptist Church is also a rising star. As the summer begins its transition to fall in the month of August, we are also transitioning. Our membership is up, our attendance is up, our existing ministries are moving forward, our music programs are inspiring, and we are experiencing the reactivation of many of our committees, so our star is rising as the Daystar/Jesus is rising in us as a congregation.

Join with me, as we take a deep breath and ready ourselves for an awakening and renewal as the transition continues for the world and the community that we serve.

Blessings,  
Garry Mickey
